**Section 5**

Evaluates the contractor’s technical, schedule, and cost performance and management. (Additional pages may be used for comments if desired). If you cannot answer any questions, please circle “N/R” for Not Rated.

The following definitions are offered for your use in assigning a performance rating for each of the factors in Sections 5 and 6.

<b>Very High (VH)</b>	The Offeror’s relevant past performance is of exceptional merit; indicating exemplary performance in a timely, efficient, and economical manner; very minor (if any) problems with no adverse effect on overall performance.
<b>High (H)</b>	The Offeror’s relevant past performance demonstrates very effective performance that would be fully responsive to contract requirements with contract requirements accomplished in a timely, efficient, and economical manner, for the most part with only minor problems with little identifiable effect on overall performance.
<b>Moderate (M)</b>	The Offeror’s relevant past performance meets or slightly exceeds minimum acceptable standards; adequate results; reportable problems with identifiable, but not substantial, effects on overall performance.
<b>Low (L)</b>	The Offeror’s relevant past performance meets minimum acceptable standards; with corrective actions needed; reportable problems with identifiable effects on overall performance.
<b>Very Low (VL)</b>	The Offeror’s relevant past performance does not meet minimum acceptable standards in one or more areas; remedial action required in one or more areas; problems in one or more areas, which adversely affect overall performance.
<b>N/R</b>	Not Rated

**Section 6**

**PAST PERFORMANCE QUESTIONNAIRE**

**Section 6:**

What is the contract value?

	Initial Value	Current Value
Estimated Cost:	\$	\$
Fee:	\$	\$
Total Value:	\$	\$

What are the total contract expenditures to date (cost/fees to date based on invoices, reports, etc)?

What is the **Annual** Contract Value to Date (The current contract expenditures to date divided by the number of years of performance to date)?

For example (note, these example numbers may not relate to this specific procurement):

Assume your contract is a current five year contract, is still ongoing, and the latest cost report reflects a cost/fee of \$43,500,000 through the first 2 years and 4 months (to date). In this example, current/total Contract Expenditures incurred to Date are \$43,500,000 and associated period of performance for those expenditures, expressed in years, is 2.33 years.

Therefore, the Average Annual Cost/Fee Incurred to Date: \$18,669,528 (\$43,500,000/2.33 years)

Was there a cost overrun?                      Yes                      No  
If yes, please explain.

If this was an award fee contract, what are the individual and/or average ratings of performance by your organization? Please attach any available award fee letters or database entries.

Please comment on particularly strong/weak points of Contractor's performance (technical, schedule, and/or cost). If the Overall Contract Performance Rating below is less than Very High, please provide some explanation in this section on why a higher rating was not provided.
